

GROWPROBE QUICKSTART GUIDE

GROWPROBE

QUICKSTART GUIDE

1) Power up

Press and hold power button on device for 5 seconds

2) Connect to device wifi

Network name and password are the same. E.g. Growprobe-D0012 will be the network name and password

3) Launch app

Head to PEBLAPP.co.uk. If that fails use 10.0.0.1:8000

4) Configure device

Follow the on-screen steps and ensure you calibrate the compass and turbidity sensor before each deployment
